International staff service, Baden-Württemberg

**Bundesagentur für Arbeit**

Zentrale Auslands-  
und Fachvermittlung (ZAV)

For a **men's salon in Stuttgart**, the ZAV is looking for a new member of staff to strengthen the team, with immediate effect:

## Full-time Hairdresser

### Your responsibilities:

- **Haircuts:** Professional and fashionable hairstyles are also part of haircuts. As part of a haircut, the eyebrows, moustache, and nose and ear hairs are cut, as well as the hairs on the ears and cheeks being burnt off with fire. The neck is shaved with clean and sharp razors and after, treated with lotion and Turkish aftershave. The hairstyle is then shaped with wax, gel or foam if desired.
- **Wet shave (Beard):** The traditional Anatolian shave using a blade. The beard is first treated with warm compresses, in order to soften it. The beard is then shaved without damaging the skin. After shaving, the contours, moustache and nose and ear hairs are cut. Ear and cheek hairs are then burnt off. The shave is then tightened using a special rock salt and finished off with warm and cold compresses. A special Turkish aftershave is then used to finish off the treatment. Using this method, model shaves such as a chin shave, 1 line bar shave, 2 line bar shaves or various other fashion shaves are achieved.
- **Fire and thread technique:** The top, bottom and middle of the eyebrows are plucked neatly with thread and shaped up without causing any pain to the customer. The cheek hairs are also removed using the threading technique. The fire technique is also used to burn off ear and cheek hairs. Additionally, wax is also used to free some of the hairs. This includes the neck, ears, cheeks, surface of the nose etc.
- **Massage:** This massage treatment uses hair lotion for the hair and scalp. Before the massage begins, the lotion is massaged well into the hair, until the liquid is distributed. Firstly, the forehead is massaged, then the head down to the shoulders, arms and hands.
- The above points depend on a professional consultation which is given beforehand. The customer must be understood, their specific needs must be fulfilled and communication with the customer must always be maintained throughout the service. Friendliness, cleanliness, order and a focus on customer satisfaction play a very important roll.
