Kinn Bryggeri is one of the leading Norwegian craft breweries. Here at Kinn we create craft beers in the English and Belgian traditions based on the purest mountain water from Sagafjella. Ancient craftsmanship - open fermentation and bottle conditioning - are important to us. None of our beers are ever pasteurized or filtered, and every one of them is brewed in our two breweries in Florø, a beautiful coastal town in the Norwegian fjord area.. Kinn beers are available off the shelf throughout Norway, and we also export to selected countries

See more of the area here: <http://www.fjordkysten.no/no/>. More information on Kinn Bryggeri can be found on our website: [www.kinn.no](http://www.kinn.no)
