Basic Information about Malta

Malta is a Southern European island country comprising an archipelago of a few islands in the centre of the Mediterranean Sea. The country covers just over 316 km², with a population of around 416,000. The capital of Malta is Valletta, which at 0.8 km², is the smallest national capital in the European Union. Malta has two official languages: Maltese and English.

Malta is a popular tourist destination with its warm climate, numerous recreational areas, and architectural and historical monuments, including nine UNESCO World Heritage Sites.

Malta's climate is typical of the Mediterranean and is strongly influenced by the sea. The Maltese Islands have a pleasantly sunny climate with a daily average of around 12 hours sunshine in summer going down to 5 to 6 hours in mid-winter. Annual rainfall is low, averaging 568mm a year. Bathing in the sea is quite possible well into the 'winter' months, and the peak beach season can last until mid- to late October.
