

History

In 1963, Myrins Interiör&Textil was established. The company started as a recycling company in the 60s. Later, we developed to direct sales where we sew custom-made products for our customers, both private and for companies such as hotels, restaurants, offices etc. The first shop opened in Sävenäs, on the Swedish West coast. The head office and production are, since 2014, situated in Kungsbacka, a town close to Gothenburg.

We are a family owned company and it is the second and third generation working in the company today. Our employees are important to us. The work is hard and the machines we are using are industrial textile sewing machines. We produce curtains for offices, hotels and private homes.

We're upholster furniture; manufacture customized sofas for public environments. We have all types of sewing and upholstery. The demand for sewing is high in Sweden and we are looking for an employee who have the experience and knowledge of profitable sewing.

We are looking for someone who have the skills of using industrial sewing machines. You are welcome to have a look at our video on YouTube to get a grasp on how the machines look like and where we work on daily bases.
