## About the XL group

It all started with a dream. A dream to fill the streets of Ålesund with happy guests who could stroll between different meeting places and be served high quality local dishes. The dream has slowly but surely become a reality through the XL group - a successful and well-established restaurant group in constant development.

The XL group consists of a number of individual restaurant concepts that are characterized by high quality and competence. We want to create meeting places where locals, tourists and business thrive, in premises that offer inspiration, creativity and good food and drink experiences. Each restaurant has its own concept and delivers this in its own unique way. The restaurant concepts that are part of the XL group are XL Diner, Happy Elefante, Milk Bar & Lounge, Culinary Pantry, Foyer and Food Company Catering.
