Job Opening: Regional Director - Infrastructure Division (Warszawa. Poland)

Company Description

Leaders in Construction

Our client is one of the largest construction groups in Spain and Mexico, dedicated to the development of civil engineering projects and building infrastructures, operating also in the industrial sector, and carrying out investments activities, such as concessions, real estate, and renewable energy.

Through the Construction, Industrial, Concessions and our client Home divisions, we provide comprehensive solutions tailored to our clients' needs, with responsibility, reliability, solvency, integrity and creating value in every project. All of this is possible thanks to a team that is committed to its objectives, society, innovation, and the environment.

During its 50 years of experience, our client has worked for both public and private clients, diversifying its construction activity towards businesses that enhance its market horizon, and expanding his geographical presence. With corporate headquarters in Madrid, the Group is currently present in Spain, Mexico, Poland, Norway, Hungary, Denmark, Peru, Uruguay, Chile and Colombia. In Spain it is number 9 in the ranking in construction companies and in Mexico number 8.

For their infrastructure division our client is presently looking for a:
